Many a man, who has been sent to an early and even suicidal grave by the torments of dyspepsia, would be alive and well to-day, had he tested the virtues of Ayer's Sarsaparilla. This is no temporary expedient, but a radical, scientific remedy. It makes life worth living.

William L. Jackson, colored, whose graduation at Eckstein-Norton was noticed a few days ago, is a son of Mrs. Annie J. Williams of this city. He is still a student at Central Tennessee College, Nashville.

The plans for the new schoolhouse in the Fifth Ward are substantially those submitted by Dr. G. M. Williams of this city. They are drawn by Samuel Hunsicker and Sons, Cincinnati. The elevations show a very handsome building, but the plan shows the entire omission of one of the most important adjuncts to a modern building—water closets. If the Board will supply the omission, it will have the credit of a most complete school structure.

THE boyhood on the burning dose, Heroic, pale and quill. While the girls cried, as they watched the wreck.

"Say, sonny, won't you soon?" But not a sound came from his jaws His peril to avert: He would not come on aid because He wore a blunder shirt.

Archbishop Corrigan denies that he ever intended to forbid Catholic girls from riding bicycles.

Scioto county, O., has 9,001 male citizens over 21 years of age. Portsmouth is the county seat.

At Allensville thieves played a queer prank. They chloroformed a married woman and stole a lock of hair.

There is a salt well in West Virginia that flows 11,000 barrels of salt water daily, and holds the world's record as a salt water producer.

Kentucky highwaymen have a new method. Officers are looking for two road robbers and a small boy assistant. The men covered the victim while the boy went through a Pembroke farmer's pockets.

George H. Trazel and George W. Smith, practical Plumbers, Gas and Steam Fitters, have formed a partnership under the firm name of Trazel & Smith, and will give prompt personal attention to all orders.

Out of twenty who applied only one was granted a certificate to teach a public school in this county at the recent examination. Teachers say that the examination is fully 50 per cent. more difficult this year than heretofore.

Everybody who saw it—and that was nearly everybody in town—pronounced yesterday's Leader the newest sort of paper. You are missing a good deal if you are not a subscriber and daily reader of THE LEADER.

Charles Johnson, a Louisville Negro who was sent to the Penitentiary from the Jefferson Circuit Court for two years for larceny, was fatally stabbed by Jessie Young, a "second-termer," sent from that county for house-breaking this year. Both are young and had.

A decision handed down by the Court of Appeals reverses a very old and locally famous case from Montgomery county, and known as the Turner-Johnson case. Two of the biggest families of the county are interested, and involved in the case are the rents and profits for many years from a very large tract of land. The reversal is a victory for the Turner side.

At Cincinnati the Board of Administration has given Engineer Burke of the Chamber of Commerce authority to lay a section of experimental brick pavement on Fourth street before the Chamber of Commerce, on condition that he should at the expense of relaying the granite after the test is made. Maybe, when slow go-pitch people see how superior a brick street is, they will conclude that it has passed the "experimental" stage.

Scribe—Byron Body.
Treasurer—James Smith.

BUSTED IN CINCINNATI.

An Assignment that Created a Decided Sensation.

The most sensational assignment of the present business season was made at Cincinnati yesterday by John B. Specker, doing business as the Specker Brothers. His assets are said to be \$750,000. Liabilities are unknown.

DIED YESTERDAY IN OHIO.

Milo J. Chase, Formerly of Maysville, Suddenly Called.

Milo J. Chase died unexpectedly in Chicago yesterday morning, aged about 81.

His home was at Muskegon, Mich., where he was engaged in business, but he traveled extensively.

Mr. Chase was a native of Pennsylvania, had been three married, and besides a widow he leaves six children, all by his first wife, and all grown and married.

His present wife, to whom he was married some thirty years ago, was Miss Mary F. Stone. She has been on a visit to her mother and sister in this city for some time—her sister being Mrs. H. H. Collins—and although a recent letter informed her that Mr. Chase was not feeling well, there was no word from any one that he was seriously ill.

The telegram announcing his death was therefore a great shock.

Mr. Chase came to Maysville in 1808 and engaged in the lumber business under the style of Chase, Dimmitt & Co. He was the moving spirit in building the planing mills of the present Collins & Rudy Lumber Co., and he must also have the credit of originating the town of "Chester," a worn-out old farm which is now the pretty Sixth Ward of our city.

He left here in 1871, going to Ripley, then to Richmond, Ind., Grand Rapids, Mich., and finally to Muskegon, in all of which places he engaged in the manufacture of pianos.

The remains will be brought to Ripley, and the interment will take place tomorrow morning.

THE HUNTINGTONS ARE HERE.

And Nothing Short of Two Games Will Satisfy E. Notes.

Truehart and his band of heroes came down from Huntington this morning for two games, this afternoon and tomorrow.

The personnel of the Huntington team shows up quite an array of hunting youngsters.

The visiting team and the home team are about evenly balanced, and these two games bid fair to be the most interesting as yet played at East End Park this season.

The game this afternoon will be called at 8 o'clock.

Reiman and Tenley will be the points for the Local team, and Smith and Zimmer for the visitors.

SHORT STOPS.

George Nie has been given his release by the Little Rock, Ark., team.

If we were to judge by past performance, we would predict a rebuff contest for the "fans" this afternoon.

Captain Anson of the Chicago League team will star in a baseball play next winter written by Charles Hoyt.

Manager Bancroft of the Cincinnati Reds wires the Local management that he will bring his regular team here next Friday.

Maysville and Huntington will cross bats for the third time this season at East End Park this afternoon. Both teams will be at their best, and no lover of the pastime can afford to stay away.

In VanWinkle the Locals have not only secured a hustling player, but a funny-tongued coacher as well. Dickie is well known here, and has a host of friends in our local 400 who will go out in force this afternoon to welcome him.

Knoir is away off in his work in the Virginia League. He pitched a game for Richmond against Lynchburg one day last week and was pounded to the tune of sixteen hits. Tanshell and Flynn, who are also with Richmond, continue to pitch good ball. It is rumored that the climate does not agree with him, and he is likely to come West any day.

The young folks of St. Patrick's Church picked at Dietrich's Grove yesterday.

THE FARMER HAD NO KICK.

He Made the Hard Times, Says a Truth-Teller.

Yesterday afternoon a party of gentlemen were standing on one of the prominent street corners talking about the political outlook, when a great big fellow, wearing an 84 hat and No. 14 shoe, stepped up and edged in on the conversation.

He began by saying the farmers had no kick coming as regards the hard times, as they were the gentlemen that caused them.

One of the party immediately took issue with him, and asked him to point out where the farmer alone was to blame for the terrible hard times that have laid the United States in the grasp ever since Grover and his gang took hold of the reins at Washington.

"Well," said the big fellow, "you see there's the farmer out planting and raising corn. Presently he markets this corn to a commission man, who in turn sells it to a distiller. This distiller makes whisky, and everybody knows that whisky produces Democrats. So you see the man you call the farmer, and the one who is talking so loudly about the hard times, is the very one who has caused them. Then tell me he has a kick coming!"

And they all took a drink of ice water out of Superintendent Schaeffer's Market street fountain.

THE COURT'S SAY!

MORE ABOUT TURNPIKE MATTERS.

The Court of Appeals Says a Local Law is Not Repealed by the Constitution.

They married May 1st. And yesterday they parted.

He—D. K. Jones, aged 60; fourth marriage; occupation given on Marriage Bond Book "Selling loose stock and lumber;" residence, Maysville.

She—Mamie Duncan, aged 38; second marriage; residence, Dover.

They went to housekeeping on the Fleming pike, and their dissolution' appear to have been as numerous as their years and their furniture.

Yesterday there was an open rupture, and it took the Police Judge and Chief Of to adjust matters.

After dining Mr. Jones \$3 and costs, and listening for weary hours to his Scriptural quotations, the officials finally got Mr. Jones and Mrs. Jones to "agree to disagree," each to take what was originally put into the pool and go their respective ways in peace.

HENRY THOMPSON STANTON.

Where Kentucky's Charming Poet Was Born, and When.

To settle a friendly controversy we will state that "Jack" Stanton—Major Henry Thompson Stanton—"Kentucky's Poet Laureate," was born at Alexandria, Va. June 30th, 1834. Consequently, he will be 61 years old on the 30th of the present month.

Mr. Stanton was educated in Maysville and at West Point, but never graduated from the latter institution.

During the war he served in the Confederate Army as Captain and afterward as Major.

After the Cleveland's first term as President Major Stanton was connected with the Indian Commission, and since his retirement from that position he has followed literary pursuits.

His recent critical illness at Frankfort has given rise to much solicitation on the part of his friends, who will be glad to hear of his speedy recovery.

THE STATE WHEEL MEET.

One Fellow "Made a Holy Show of Himself."

Courier-Journal.

The eleventh annual meet of Kentucky Division, held at Maysville, will not go on the records as one of the most enjoyable gatherings of the wheelmen of the state. Why this was so it is not hard to say. The active working committee had secured a first-class arrangement. Messrs. Tom Russell and James A. Knox, certainly did everything in their power to make the meet a good one, but it is beyond the strength of any two men to entertain State-wide guests, and this is what these gentlemen did to do. They were practically unaided by their fellow-wheelmen, and they did not have the support of the citizens of Maysville. In fact, many of the people seemed to look upon the visitors as unwelcome guests, and they were not backward in showing their unfriendly lines.

Unfortunately, one of the visitors from a Western Kentucky town made a holy show of himself and behaved in a disgraceful manner. He was rebuffed on account of the misdoings of his fellow. This man, by the way, is not a member of the League, nor will he become one.

There has been no proposition to issue bonds in Mason county as there has been in Fayette, nor does our law require a submission of the question to a vote of the people.

All the friends of free pikes want it to know the law—and they will obey it!

Fire Insurance—Daley & Baldwin.

Circuit Court has adjourned to Saturday.

Miss Sallie Jordan entertained a few of her friends Monday evening in honor of Misses Minta and Emma Smith.

Miss Mamie M. Collis, daughter of Mr. and Mrs. Lewis Collis, and Mr. Henry P. Wilson of Orangeburg, will be married on Thursday afternoon at the house of the bride's parents near Orangeburg.

Fourth of July!

Don't miss the Fourth of July! This is the first running meet Maysville has ever had, and it will be a bloomer.

Notice.

On and after July 1st the receipts for city taxes will be in my hands for collection.

JAMES W. FITZGERALD, City Treasurer.

"Knot" Exactly.

Meason county, Kentucky's, Black Knot Commission has already cut the county \$750. It was created to find fruit trees with black knots on them and whittle them off. Some of the knots were not high, but the bills for removing them appeared to be drawn from among the top limbs. The trees all died, but thanks to the Commissioners' hatchet, death was not due to the black knot.

After Long Separation.

Mr. Hugh Hannon and Mr. Hugh Hannon, Jr., of Columbus, O., are on a visit to Mr. and Mrs. Edward Glenn. Mr. Hannon, Sr., is a brother of Mr. Glenn's mother who is now in St. Louis, but who is expected home in a few days. Mr. Hannon left his sister in Ireland over fifty years ago, she coming to this country later. They had not heard from each other for more than forty years, and each mourned the other as dead. It was only last April that their respective whereabouts were learned, and it may be judged the meeting of the long-parted brother and sister will be a memorable one.

THEY AGREED TO DISABLER.

December and July Conclude a Brief Honeymoon.

They married May 1st. And yesterday they parted.

He—D. K. Jones, aged 60; fourth marriage; occupation given on Marriage Bond Book "Selling loose stock and lumber;" residence, Maysville.

She—Mamie Duncan, aged 38; second marriage; residence, Dover.

All the machinery and valuable have been secured from the wreck of the Iron Queen, and nothing now remains except the hull, which the Woodruff will remove.

The hull of the new Pittsburgh and Cincinnati Packet Company's boat, the Virginia, has been completed and is a beauty. Competent judges say the boat will be unusually speedy.

The injury to the Lizzie Bay, consequent to the breaking of a hogchase near Ashland the other day, did not discommodate her greatly, as it was speedily repaired, and she is now in the regular run.

Although no material change in the river has appeared since Sunday, notwithstanding the heavy rains in the Ohio Valley, river men are still hopeful. A rise of 4 is reported at Oil City and 0.8 at Pittsburgh. Below the dam however, the river continues falling slowly. No rain has made its appearance.

KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited coinage of silver, believing that it will injure the country in financial ruin. We believe in a sound currency and in the use of gold and silver for coinage, provided always that dollar in use is made precisely as valuable as a dollar in the other.
We favor a tariff as repaid as to protect the interests of citizens of our country upon articles that may be successfully manufactured or produced in this country, thus insuring good wages to the laborer and a home market to the producer; and in connection with this we favor the re-establishment of the doctrine of reciprocity. We believe that such a policy will bring our Government to a point where it will be able to meet the world on equal terms, and we believe that the Republic will be able to meet the world on equal terms, and we believe that the Republic will be able to meet the world on equal terms.

Are the Republican leaders likely to counteract a recent, even temporarily, to the tariff-revenue-only policy of the Democracy, as in the case of duties on tea and coffee?—Springfield Republican.

Not much. The "Tariff-for-revenue-only" policy of the Democracy is an English policy. The Republican leaders are Americans. They have ideas of their own and are for American Protection. They don't have to go wooing to the London Times to get ideas.

The Neutrality Laws in Cuban Waters.

United States Steamer Raleigh Sails From Key West.

The Atlanta Under Orders to Leave New York Harbor for Cuban Waters—The Two Vessels Are Equal to the Task Assigned to Them.

WASHINGTON, June 25.—The United States steamer Raleigh sailed from Key West at 11 o'clock Monday for a cruise at sea between Cuba and the Gulf States. It is not known whether her commander has instructions to look out for any filibustering expedition, but there is no doubt she will endeavor to intercept any unlawful vessels. She is liable to drop into any small port or inlet along the coast and thus prevent the smuggling or sailing of filibusters bound for Cuba.

The cruiser Atlanta is under orders to leave New York harbor Tuesday to enforce the neutrality laws in Cuban waters. She will first stop at Port au Prince, Hayti, and when she leaves there her movements are apt to be somewhat perplexing to filibustering expeditions menacing the south coast of Cuba.

After cruising as long as her commands the Atlanta will go into Santiago de Cuba and lie there until her business is completed. She is held in readiness to go out and give chase to any expedition that may be attempted.

This new duty of the Atlanta, together with that of the Raleigh, along the Gulf coast of the United States, indicates the determination of the administration to give Spain no opportunity of accusing this government of negligence.

While it is believed in official circles that the reports alleging violations of neutrality have been exaggerated, other American warships will be sent to the Gulf of Mexico if it should be demonstrated that the Atlanta and Raleigh are unequal to the task assigned to them.

Several expeditions from Costa Rica and other Central American ports are known to have left for Cuba, and at least one of them has landed on the island. As far as known, the United States was not concerned in them, but the Montgomery will continue vigilant until she returns to Mobile early in July.

THE NEW CHINA.

New Offers to the World a Vast and Waiting Market.

WASHINGTON, June 25.—Consul General Jernigan at Shanghai has sent to the state department another report upon the commercial advantage of the treaty between China and Japan. Former treaties contained no favored nation clause, while the treaty now contains concessions beneficial to and expansive of all Asiatic commerce. The concessions to Japan have given to the world new markets and avenues of trade. Now twenty-eight ports are open and the countries having the favored nation status are not to be treated as equal privilege with Japan. Japan was under restrictions as to the interior trade which have now been removed. Mr. Jernigan says the most important provision of the treaty is that which makes it free to carry on manufacturing industries. This virtually opens China to new industries, as machinery may now be imported under one clause of the treaty. Mr. Jernigan says that American capitalists and merchants propose to make permanent business investments in China they should study with great diligence the wants of the Chinese and not venture too far without accurately estimating all surroundings. He adds: "It may be said that China is a great undeveloped country of the world, and that new developments attended with profit await well directed enterprises in this empire."
